

HOW-TO

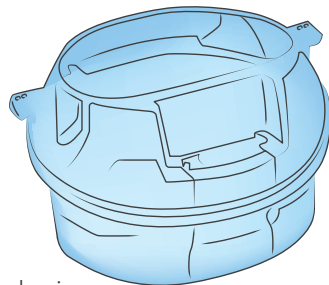

helpful instructions

How to Disassemble the Water Basin

- 1 Unwind the power cord from the Sirena and Dolly.
- 2 Step on the release peddle on back of dolly and lift up on the Sirena to remove entire unit from dolly.
- 3 Unlatch both side clips by pulling out on the top of clips.
- 4 Pull the Sirena straight up by the handle to separate the motor housing from the basin.

How to Reassemble the Water Basin

- 1 Line the front of the Sirena up with smaller hole in the basin from above and lower the motor housing onto the basin.
- 2 Latch both side clips onto the basin to secure the basin to the motor housing.
- 3 Place the front lip of the Sirena under the front lip of the dolly ensuring the Sirena is hooked into the front of the dolly, then push the rear of the Sirena down into the dolly until you hear it click into place. The Sirena is now locked into the dolly.
